Ramboo Colourcane Limited

RAMBOO is a worldwide patented process to manufacture high quality furniture, that perfectly resembles and reproduces furniture made from natural materials such as bamboo, rattan, wicker, cane, reed and wood.

Our furniture has a better than natural appearance by virtue of superior construction and finish. The authentic appearance enables owners to produce elegant and exotic atmospheres in their homes.

In our quest to bring something new and exciting to the world of interior decorating, we came up with what we call wood grain. It is beautiful both in the outer and inner qualities of strength, hygiene and durability.

The wood grain is stain resistant, resistant to cigarette burns, U.V rays and most chemicals. This ensures ease of maintenance and best of all environmentally friendly. Major international firms and hotel franchises bear witness to our client needs and dedicated customer care.

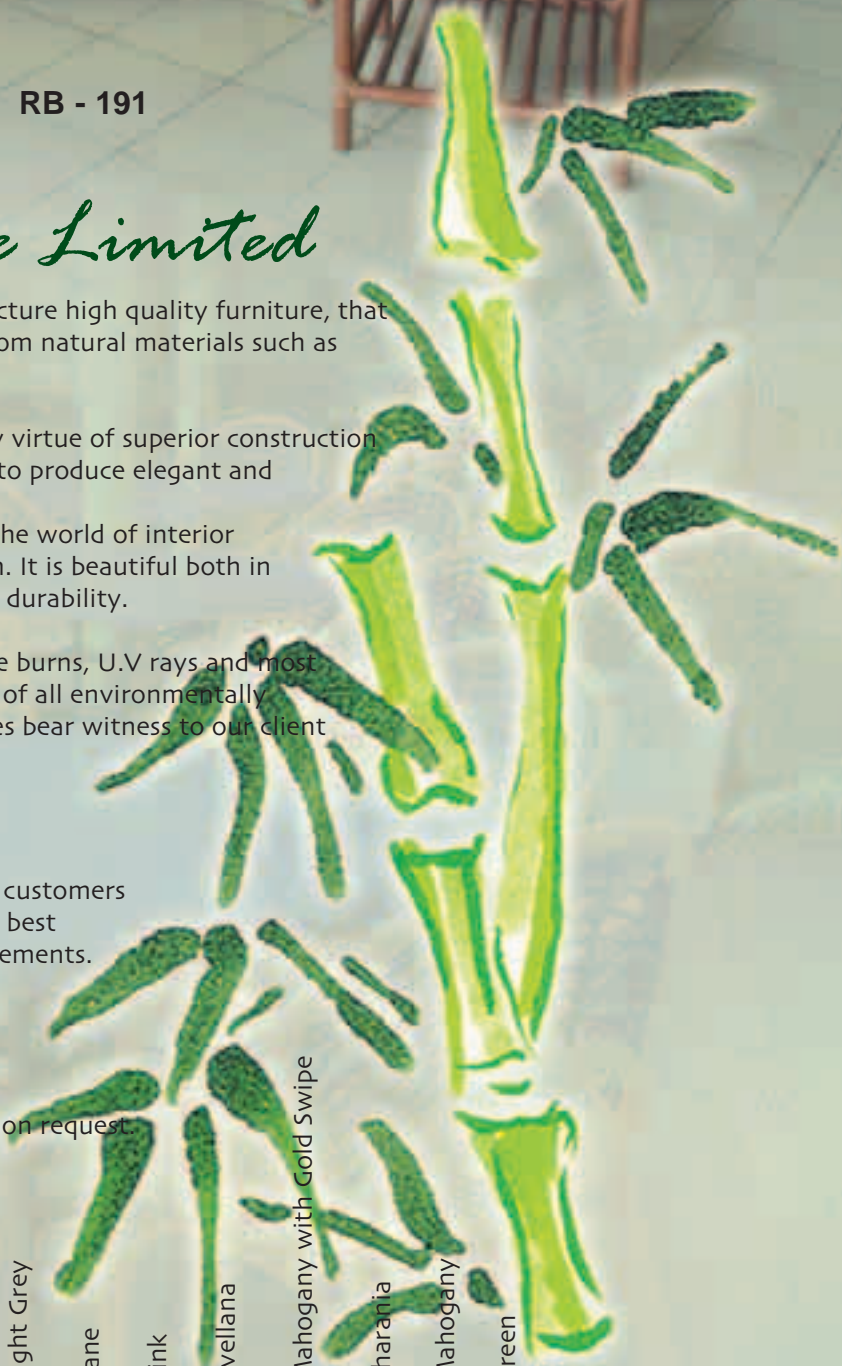

Upholstery

An exciting range of fabrics is offered or alternatively customers may specify their own. Cushions are made of the very best quality fillings and can be tailored to individual requirements.

Colour Options

A standard range of 14 colour finishes are available. Special colours and decorative effects can be supplied on request.

- Navy Blue
- Toast
- Bengalla
- White
- Bamboo Green
- Dark Brown
